43mm Stainless Steel Ladders

Stainless Steel Pool Access Ladders available from different manufacturers, such as Certikin, Astral & Plastica.

All 43mm pool access ladders are now supplied with double width top treads as standard for safety reasons.

For more information and prices please call for a quote, identifying where possible the manufacturer, design and number of treads.

These ladders are usually available from stock and are supplied flat packed.

Assembly is simple and can easily be carried out by the customer.

High Density Plastic Access Ladders

The High Density Plastic Access Steps are designed to eliminate gaps and the danger of entrapment.

The step units comply with all regulations for height of handrail, height between treads etc, they have the added advantage that the side rails and treads go all the way back to the wall with no gaps.

Individually manufactured to suit your swimming pool requirements.

Not just for pools, our steps can be manufactured to suit many applications.

The steps can be permanently fixed or made removable with stainless steel sockets.

Available in a range of colours
